Education

Swami Keshvanand Institute of Technology

Bachelor of Technology in Computer Science Engineering; CGPA: 9.34

Jaipur, India

Sep 2023 – Present

Devendra Bal Bharti Sr. Secondary School

12th Grade – 94%

Sri Ganganagar, India

2021

Blue Mount International School

10th Grade – 82%

Sri Ganganagar, India

2019

Technical Skills

Languages: C, C++, JavaScript

Frontend Technologies: HTML5, CSS3, React.js

Backend Technologies: Node.js, Express.js, RESTful APIs

Database: MongoDB

AI: LLM APIs, Embeddings, Basic RAG Concepts

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Developer Tools: Git, GitHub, VS Code

Experience

Full Stack Developer Intern

Playtown Studio

May 2025 – July 2025

Jaipur, India

- Developed full-stack web application features using React.js, Node.js, Express.js, and MongoDB.
- Engineered and integrated RESTful APIs to connect client and server layers and improve data flow.
- Created reusable React components and implemented client-side form validation to improve maintainability and reduce UI bugs.

Frontend Intern

Kistechnosoftware

July 2024 – Aug 2024

Jaipur, India

- Designed responsive web pages using HTML, CSS, and JavaScript across desktop and mobile devices.
- Built 10+ reusable UI components and added client-side form validation to improve user experience.
- Collaborated with 3+ developers to debug, test, and optimize website functionality and responsiveness.

Projects

Smart Hostel Gate Pass with AI Assistant | React.js, Node.js, Express.js, MongoDB, QR, OTP

GitHub

- Developed a role-based hostel gate-pass management system for students, parents, wardens, guards, and administrators.
- Implemented student pass requests, parent email OTP verification, and warden approval workflows.
- Integrated QR code generation and guard-side QR verification for authorized student exit.
- Built RESTful APIs using Node.js and Express.js with MongoDB to manage gate-pass requests, approvals, and student records.
- Integrated an AI assistant to answer hostel rules, approval procedures, QR verification, and gate-pass status queries.

AI YouTube Chat | Python, YouTube Transcript API, Embeddings, RAG, LLM API

GitHub

- Built an AI chatbot that answers user questions using content extracted from YouTube video transcripts.
- Extracted and processed YouTube transcripts to make video content searchable for user queries.
- Used embeddings and similarity-based retrieval to identify relevant information from video transcripts.
- Provided relevant retrieved content to an LLM to generate answers based on the video information.

Achievements

Honors Degree in BTech: Pursuing through various NPTEL courses in Computer Science and Engineering domains

Pragati Scholarship: National scholarship for academic excellence (2023–2027).

Basketball Champion: 1st Prize, Udaipur State Championship (November 2024).
