EDUCATION

Swami Keshvanand Institute of Technology <i>Bachelor of Technology in Computer Science (CGPA: 9.34)</i>	Jaipur, India <i>Sep 2023 – Present</i>
Devendra Bal Bharti Sr. Secondary School <i>12th Grade (94%)</i>	Ganganagar, India <i>2021</i>
Blue Mount International School <i>10th Grade (82%)</i>	Ganganagar, India <i>2019</i>

TECHNICAL SKILLS

Languages: C, C++, JavaScript
Frontend Technologies: HTML5, CSS3, React.js
Backend Technologies : Node.js, Express.js
Databases : MongoDB
CS Fundamentals: DSA, OOPs, DBMS, OS
Developer Tools: Git, GitHub, VS Code
Soft Skills: Communication, Teamwork, Time Management, Adaptability

EXPERIENCE

Web Development Intern <i>Kistechnosoftware</i>	July 2024 <i>Jaipur, India</i>
– Built responsive web pages using HTML, CSS, and JavaScript that worked properly on different screen sizes and devices. – Built 10+ reusable UI components and implemented client-side form validations, reducing invalid form submissions and improving user experience. – Collaborated with a team of 3+ developers to debug, test, and optimize website functionality and responsiveness.	

PROJECTS

Finance Tracker Web Application <i>React.js, Node.js, Express.js, MongoDB</i>	
– Built a full-stack Finance Tracker application using the MERN stack, enabling users to efficiently manage 1000+ transaction records. – Implemented secure authentication and authorization system for user registration and login with encrypted credential handling. – Developed 5+ RESTful APIs using Express.js and integrated MongoDB for efficient transaction and user data management. – Implemented CRUD operations for income and expense tracking with real-time updates and dynamic transaction history. – Designed a responsive React dashboard displaying 1000+ transaction records, balance summaries, income, expenses, and recent financial activity.	
Agriculture Management System <i>HTML5, CSS3, JavaScript, JSON</i>	
– Developed a responsive agriculture management platform featuring 4+ modules including crop details, marketplace, farmer profiles, and weather updates. – Designed and implemented responsive user interfaces using HTML5 and CSS3, improving accessibility across desktop and mobile devices. – Used JavaScript and JSON for dynamic client-side rendering and efficient display of 50+ product-related entries in the farmer marketplace module. – Integrated live weather updates and optimized data presentation, improving navigation and user interaction across multiple modules.	

ACHIEVEMENTS

Honors Degree in BTech: Pursuing through various NPTEL courses in Computer Science and Engineering domains
Pragati Scholarship: National scholarship for academic excellence (2023–2027).
State-Level Basketball Champion: 1st Prize, Udaipur State Championship (November 2024).
